### WILLAMETTE NOTES

The classes in methods in physics and chemistry made a trip to the state normal school at Monmouth yesterday to study the pedagogical methods used there. The two classes left in an auto truck early in the morning and spent the entire day there. They received much valuable knowledge regarding methods of instruction, and were very pleased with the hospitable reception given them. President Ackerman of the normal school did everything in his power to make the stay an interesting one for the visitors, making arrangements for them to visit any class they desired. The party was entertained for luncheon at the young ladies dormitory by Miss Todd, dean of women.

Prof. J. J. Matthews who had charge of the Willamette students was well pleased with the results of the trip, believing they had learned a great deal about the practical methods of teaching.

The Willamette student body held a long and important student body meeting this morning; when the smoke of the forensic battle had cleared away the results showed that two amendments to the constitution had been adopted.

One amendment provides that the law students shall have a special poll for them to vote at when student body elections take place. The other and most important amendment was the adoption of an article, which provides for a student manager of athletics, beginning next fall. This goes away with the present system of electing a manager for each student activity.

The student manager will have charge of football, basketball, tennis, baseball and track. He will receive \$100 for services, and be required to give a bond of \$500. It is believed that this movement which is a step towards progress will result in better efficiency and better all round results, and may eventually lead to Willamette securing a graduate manager later.

President Jewett made his farewell address to the student body, before turning over the gavel to his successor, Earl Piezlo, who was recently elected.

Tonight is the date for the annual junior-senior banquet at the Marion hotel. The juniors have put forth every effort to make the affair a success; and it will be such undoubtedly, as they have the reputation of being royal entertainers.

The Philodan program for this afternoon is rather a unique one, judging from the numbers which are to be given. The program is as follows: Solo, Glenn Teeters; Campus Rumors, Iwan Dotsford; Lemon extract, Helen Gutter; play, Leitha Backenham; a stomp, Winifred Bagley, Ruth Green, Esther Cox and E. Wiedmer.

The Websterian program, which was postponed Wednesday evening on account of the club concert, was held last evening.

The senior class of the university are planning to give as a gift to the university on graduation day, a large sundial. This sundial will be built in front of Easton hall, half way between, from State street entrance. The sundial will be built on either side of it, so that visitors entering the campus may always know the time of day, provided the sun is shining.

The gift will be in keeping with a fitting adornment for the campus. Last year's class erected the pillars at the built the campus cement benches.

The Willamette "Bear Cats" baseball team left this morning for Corvallis, where they will play the O. A. C. team. They will return this evening.

The track team will go to McMinnville tomorrow morning to participate in the non-conference meet, which will be held there. Those who will compose the team are:

Brasier Small, Ben Jackson, Bert Ford, Carl Chuplar, A. Castle, "Tekon" Grosvenor, L. Steves, Paul Brown, Lloyd Shisler, Frank Bagley, Waugh and Richardson.

In the meet last year Pacific University nosed out by a few points in the lead, thus winning the silver loving cup. It must be won three years in succession however before it becomes a permanent possession, and Willamette is expecting to show the P. U. delegation under in the meet tomorrow and bring the cup to Salem for a year.

### STAYTON SCHOOL EXERCISES

The demonstration of the physical training department of the Stayton school on the campus Friday afternoon was witnessed by a large crowd and enjoyed by all.

The gym girls showed careful training in marching, exercises, indian club drill, and folk dances.

The relay races by the 5th and 6th grades were quite exciting, each side winning a game.

The basket ball game between the 8th grade and the high school girls was won by the latter 6 to 1, but it was anybody's game all through.

After the program was over sandwiches, salads, ice cream, cake, etc., were served and a neat little sum raised for the high school baseball boys.

It might be appropriate to say here that the entire equipment of swings, rings, teeters, games, etc., have been bought and paid for by the school entertainments. Not a dollar has been furnished by the board, and Stayton today has a very complete playground equipment. —Mail.

An average of fruit losses by frost, as estimated by the orchardists themselves, is approximately 25 per cent in connection with this estimated loss must be taken into account the fact that the orchardists of the valley have this year a stand of 200 to 300 per cent on the trees. A considerable percentage of this would be lost, happily, to be sure, by the normal droppage of fruit. The frost will take off all of the weaker fruits and, no doubt, some of the good stand. But it will yet be necessary to do a great deal of thinning. The fruit orchards in the foothill districts and on the higher levels in the valley are practically uninjured. Those areas and streaks in the valley where the losses are greatest cannot be said to be frost pockets. It was a very freakish condition of much more than ordinary duration. —Dallas Observer.
